1. Introduction

Office Accounting is a web based inventory, accounts and human resource management software that let users control their stock, note expenses and take employee attendances. Run your business by setting up companies, products, and employees. Maintain your inventory, accounts and human resource expenses with simple and useful reporting.

(Figure 1)

2. Enterprise Resource Office Accounting Software

Office Accounting software package is composed of following components:

1. Web Application Software Package
2. MS-SQL Server 2012 Database Installation Script
